Kusenko, F. G., and Gel'd, P. V.
 SOME PROPERTIES OF NbO_2 . [1962] [8]p. 9 refs.
 Order from CTS or SLA \$1.10 63-15133

Trans. of Izvestiya Vysshikh Uchebnykh Zavedeni.
 Tsvetnaya Metallurgiya (USSR) 1960 [v. 3] no. 4,
 p. 102-106.

DESCRIPTORS: *Niobium compounds, *Oxides, *Heat
 transfer, Calorimeter, Temperature, Electrical
 conductance, Thermal expansion, Phase transitions.

An investigation was made of the heat content of NbO_2
 in the temperature range from 298° to 1500°K . Equa-
 tions are proposed for the temperature dependence of
 the heat content and heat capacity of NbO_2 . Measure-
 ments of the heat content, electrical conductivity, and
 coefficient of thermal expansion established the fact
 that NbO_2 undergoes a phase transition in the vicinity
 of 1040°K . (Author)
